

* FACE MASK DECREE IS ANTI-SCIENCE

Statement by the New England Journal of Medicine about universal masking ...

Consider this quote from non other than Anthony Fauci back in March ...

“There’s no reason to be walking around with a mask,” - Dr. Anthony Fauci - 60 Minutes.

“When you’re in the middle of an outbreak, wearing a mask might make people feel a little bit better and it might even block a droplet, but it’s not providing the perfect protection that people think that it is. And, often, there are unintended consequences — people keep fiddling with the mask and they keep touching their face.” Anthony Fauci

The World Health Organization

“Masks should only be used by health care workers, caretakers or by people who are sick with symptoms of fever and cough,” - Dr. April Baller, public health specialist for the W.H.O.

Baller adds that the danger to a healthy person wearing a mask is a “false feeling of protection”

Fauci has been “The National Expert” since Ronald Reagan was president. He has studied virus safety for decades. To say that Covid has changed his mind is simply wrong. His views are evolving due to political and media pressure, PERIOD. And that is not right!

FALSE ASSURANCE:

Have you read the warning label on the masks you are wearing? A major retailer in Wisconsin was selling surgical masks and it said in rather large print “NOVELTY ITEM” which is to say it is a toy not a medical device.

Here is a typical warning label:

THE SCIENCE THAT FACE MASKS FAIL THE VIRUS TEST

Jacobs, J. L. et al. (2009) “Use of surgical face masks to reduce the incidence of the common cold among health care workers in Japan: A randomized controlled trial,” American Journal of Infection Control, Volume 37, Issue 5, 417 – 419. <https://www.ncbi.nlm.nih.gov/pubmed/19216002>

N95-masked health-care workers (HCW) were significantly more likely to experience headaches. Face mask use in HCW was not demonstrated to provide benefit in terms of cold symptoms or getting colds.

Cowling, B. et al. (2010) “Face masks to prevent transmission of influenza virus: A systematic review,” Epidemiology and Infection, 138(4), 449-456.

None of the studies reviewed showed a benefit from wearing a mask, in either HCW or community members in households (H). See summary Tables 1 and 2 therein.

bin-Reza et al. (2012) “The use of masks and respirators to prevent transmission of influenza: a systematic review of the scientific evidence,” Influenza and Other Respiratory Viruses

“There were 17 eligible studies. ... None of the studies established a conclusive relationship between mask/respirator use and protection against influenza infection.”

Smith, J.D. et al. (2016) “Effectiveness of N95 respirators versus surgical masks in protecting health care workers from acute respiratory infection: a systematic review and meta-analysis,” CMAJ Mar 2016

“We identified six clinical studies In the meta-analysis of the clinical studies, we found no significant difference between N95 respirators and surgical masks in associated risk of (a) laboratory-confirmed respiratory infection, (b) influenza-like illness, or (c) reported work-place absenteeism.”

Offeddu, V. et al. (2017) “Effectiveness of Masks and Respirators Against Respiratory Infections in Healthcare Workers: A Systematic Review and Meta-Analysis,” Clinical Infectious Diseases, Volume 65, Issue 11, 1 December 2017, Pages 1934–1942,

“Self-reported assessment of clinical outcomes was prone to bias. Evidence of a protective effect of masks or respirators against verified respiratory infection (VRI) was not statistically significant”; as per Fig. 2c therein:

Radonovich, L.J. et al. (2019) “N95 Respirators vs Medical Masks for Preventing Influenza Among Health Care Personnel: A Randomized Clinical Trial,” JAMA. 2019; 322(9): 824–833.

“Among 2862 randomized participants, 2371 completed the study and accounted for 5180 HCW-seasons. ... Among outpatient health care personnel, N95 respirators vs medical masks as worn by participants in this trial resulted in no significant difference in the incidence of laboratory-confirmed influenza.”

Long, Y. et al. (2020) “Effectiveness of N95 respirators versus surgical masks against influenza: A systematic review and meta-analysis,” J Evid Based Med. 2020; 1- 9.

“A total of six RCTs involving 9,171 participants were included. There were no statistically significant differences in preventing laboratory-confirmed influenza, laboratory-confirmed respiratory viral infections, laboratory-confirmed respiratory infection, and influenza-like illness using N95 respirators and surgical masks. Meta-analysis indicated a protective effect of N95 respirators against laboratory-confirmed bacterial colonization (RR = 0.58, 95% CI 0.43-0.78). The use of N95 respirators compared with surgical masks is not associated with a lower risk of laboratory-confirmed influenza.”

Conclusion Regarding That Masks Do Not Work
No RCT study with verified outcome shows a benefit for HCW or community members in households to wearing a mask or respirator. There is no such study. There are no exceptions.

I Oppose the governor's face mask decree and his unconstitutional lockdowns because it is bad Science and damaging to my health!

THE FACE MASK DECREE IS NOT JUST ABOUT HEALTH!

**IT'S ALSO ABOUT
FREEDOM OF CONSCIENCE
FREEDOM OF RELIGION
FREEDOM OF SPEECH**

**IT'S ABOUT POLITICS
IT'S ABOUT CDC AND MEDIA LIES
IT'S ABOUT THE ELECTION**

**AND YOUR FEAR DOES
NOT TRUMP MY LIBERTY!**

***It's about forced healthcare
and government invasion of
personal liberty
AND IS PURELY
POLITICAL!***

KEEP YOUR LAWS OFF MY FACE!

**A Christian home school Mother
Speaks out!**

Tyrants really do rule when good men do nothing.
We are told to do our part, Heil Hitler!

And people are willingly stepping into the trap.

Wear your mask, do your part. (I hope my sarcasm is understood here.)

Haven't we learned from History? Probably not, since so many history books have been changed to obscure true facts.

As to what to do, I am wrestling. My church is wrestling. Creation is groaning. Today it is forced masks. Tomorrow it will be forced vaccines. The next day it will be no buying or selling unless you have the aforesaid vaccine because you will be a supposed threat to society. (*It seems to be lost on people that if they have the vaccine themselves, they should be safe. But, no, they are not satisfied until everyone pollutes their bodies.*)

Where are the feminist women now with their cries of "I have a right over my own body"? Hmm. I guess that's only applicable when it involves murdering an infant.)

Can you see how easily the mark of the beast can be ushered in here? God help us. Life is overwhelming as things keep getting thrown at us each day.

As an aside, about going into a private business that has a rule that you must wear a face mask, they also have a right to make rules for their business, like it or not. But a government on the whole is overstepping its bounds to do this.

Also, I would like to introduce a phrase. Mask Freedom. My dad/pastor said this. It makes sense instead of anti-mask. If you want to wear a mask, go ahead, but don't force me to do the same.

(Most masks people are wearing are pathetically ineffective. Even the boxes say so!
